Professional Summary

Three years ago I opened VS Code for the first time with no idea what I was doing. Since then, I've built systems that actually work — from a job portal and e-commerce platform to projects with real data and payment flows. About to graduate from JECRC, I'm looking for a team where I can keep building and growing alongside experienced engineers.

Education

JECRC University

Bachelor of Computer Applications (Full Stack Development)

Jaipur, India

2023 – Present

St. Xavier's School Nevta

High School Diploma (Class XII & Class X)

Jaipur, India

Completed

Experience

Collage Dekho Group

Full Stack Developer Intern

Jaipur, India

May 2026 – Present

- Joined as part of the engineering team building internal tools and web applications.
- Took ownership of features end-to-end — from writing APIs to building responsive frontend interfaces.
- Participated in daily Agile standups and delivered features across two-week development sprints.
- Used modern developer tools (Cursor, Copilot) as productivity aids while conducting thorough code reviews.

Projects

JobDekho — Job Portal & HR Management System

Team Project (3 Members)

Technologies: React, Node.js, Express, MongoDB, Redis, Docker, Swagger

- Built a full-stack platform managing job listings, applications, employee onboarding, attendance, and payroll.
- Wrote the authentication system from scratch using JWT tokens and role-based access control.
- Connected Redis for server caching and containerized the application with Docker for deployment consistency.
- Implemented rate limiting, security headers, and auto-generated API documentation with Swagger.
- Wrote automated integration tests with Jest and Supertest using an in-memory MongoDB server.

MensVibe — E-Commerce Platform

Full Stack Application

Technologies: React, Node.js, Express, MongoDB, Razorpay, Cloudinary

- Developed an e-commerce application for men's fashion to master full-stack production workflows.
- Built the full shopping flow from product browsing and shopping cart to checkout.
- Integrated the Razorpay payment gateway to process payment transactions.
- Created a vendor dashboard for product management and integrated Cloudinary for image hosting.

Technical Skills

Languages & Core: JavaScript (ES6+), Python, HTML5, CSS3, Data Structures

Frontend: React, Tailwind CSS, Framer Motion, Vite

Backend & Databases: Node.js, Express.js, REST APIs, MongoDB, MySQL, Redis

Tools & Testing: Git, Docker, Postman, Cloudinary, Swagger, Jest, Supertest
